BY STEVEN JACKSON

THERE HASN'T BEEN MANY NEW MLM COMPANIES WORTH REVIEWING OVER THE LAST FEW YEAR UNTIL VELOVITA BEGAN TRADING IN MAY 2020

To start with, this company is truly a top MLM business for the network marketer looking for a new adventure. The main reason is because it has considered all the aspects of MLM that we all hate. Many MLM companies create lists of rule preventing the distributor from running their business how they want.

This company allows members to build their business, sell the products and earn as much as possible. In fact, it is a breath of fresh air and anyone who has not joined yet should be seriously considering it.

To make them more interesting, many of the top leaders have made a move after realizing who the founders are.

This review is intended to give the network marketer the opportunity to get a clearer understanding of what we are offering. In addition, I will add my own points of view on how I see their future for distributors and leaders on the front line.

IS THIS THE RIGHT OPPORTUNITY FOR YOU?

The challenge we have in society is that we loss focus and drive to succeed and this is where we come in. The problem is simple, so ask yourself these questions:

- Do you lack energy?
- Do you lack enthusiasm?
- Do you find it hard to focus?
- Does stress overwhelm you?

In your career:

- Are you saddled with debt?
- Do you hate your job?
- Are you unappreciated in what you do?
- Do you lack any opportunity to have free time?
- Is your future insecure and uncertain?

I can only say that this is one of the better MLM companies around at the moment. We could argue all day about if this company fits your mindset or the products were ethical enough for you. At the end of the day, this is a honest and transparent business that is open for anyone to try.

WILL THIS COMPANY OR PRODUCT CHANGE THE WORLD?

There has only really been a few companies or products that has changed the world in any big way in the 21 century. Lets say for argument sake that companies like Apple, Amazon and Facebook has had a massive impact on our lives. Velo-Vita is a great company, but being realistic, it will not be able to do that. However, it may improve your focus and your financial situation which will change your life forever.

FINDING A SOLUTION!

VELO VITA AND ITS PARTNERS OVER THE LAST FEW YEARS HAVE BEEN DEVELOPING AND INNOVATING A PRODUCT AND BUSINESS TO SOLVE THESE PROBLEMS IN ONE PACKAGE.

Biohacking

We have started with a biohacking products. This is where science meets health with the goal to improve our mental performance and enhanced focus

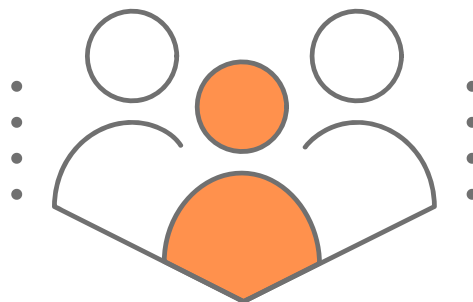

Financial Immunity

To build a business or selling MLM products online has become the new side hustle. It was realized when someone made that connection between the internet and making money online. This is also a fulfilling career for those who want something different.

Community

The years that I have been in this industry, one of the main attraction is the relationships that are built. These relationships last for a life time in many cases. They may start with collaboration or mentorship and then slowly become a friendship as the years go by.

Joining us will be more than just paying your enrollment fee and hoping you become a top earner. You are joining a community of people that care about you and what is going to happening the future.

WHO IS VELOVITA?

THIS NEW MLM COMPANIES FOUNDERS ARE KOSTA GARA AND JEFF MACK. I DECIDED TO REVIEW THEIR INFORMATION MORE DEEPLY AND FOUND OUT THAT:

- They are both best selling authors
- They both have about 30 years in the industry as distributors in various MLM companies
- They are both business owners.
- They are both top leaders in their own right
- We are very lucky to have such professional and competent people heading this company

Where is this top MLM company based?

They are based in Florida, USA and they are a debt free in-house ecosystem. This is a top world class company with experience and infrastructure going back 20 years. Even though this company has just launched, strictly this is not a start up. The infrastructure and experience was already been fabricated way in the past. This is really an established company that decided to start their own MLM business.

Our Story

We believe in entrepreneurship and in particular the entrepreneur! After decades as top revenue producers, consultants, and vendors, we observed a continual and disturbing pattern: those actually creating revenue for a company getting the short end of the stick. Hard working entrepreneurs trying to provide for their families and create a better future all too often have been left disappointed and underwhelmed with unmet expectations.

We know it can be better and Velovita was created to be just that - not only better but an exceptional side gig with flexibility, security and a global reach - right from the comfort and convenience of your own home. We as a company and a community exist to provide our people with cutting edge products that are effective and fun to use, business tools, the know-how, and a positive environment allowing them to create a better future for themselves and their families while helping others become their greatest version of themselves.

Our Mission

To provide an ecosystem of inspiration, education, enrichment, Velovita has a singular focus on the success their daily performance both mentally.

Our Vision

Velovita envisions a worldwide movement of people reaching their greatest potential by providing an environment and tradition united to create a platform for every

44 I truly believe that in life every happy series of events, and decisions that will ultimately define your destiny. Don't allow life to happen to you, rather create it. You have one chance, to make it count. Legendarily! 55

A NEW HYBRID BUSINESS MODEL FOR THE 21 CENTURY

It is a new and powerful combination when direct sales / MLM meets E-commerce and online marketing. As for me, I have been running every type of business online for the last 15 years. Not always with the consent of the company I worked with, but someone needs to take the lead.

Top direct sales / MLM companies

The reason why so many people love direct sales and MLM as a business is the low investment and the high earning possibilities. Even though traditional businesses are still valid, MLM still seems to have the edge. Consider the list below, notice that direct sales is far ahead of the other industries.

- Direct Sales \$193B
- Movie Industry \$42.5B
- Music Industry \$11.1B
- NFL Industry \$8.1B

If we break this down into numbers we all can understand, every ten seconds someone new joins a MLM business. They will pay an average fee of about 250\$ against \$35K for a traditional bricks and mortar business.

HYBRID BUSINESS MODEL

TOP ECOMMERCE AND ONLINE MARKETING COMPANIES

I have been asking myself for many years why other top MLM companies have not adopted eCommerce methods in their MLM business plan. It is such a logical and obvious partnership.

It is clear from my experience that many of the top MLM companies are not happy with the shift toward online marketing. Many argue that the internet takes away the fundamental concept of MLM. They often see that sharing their products and opportunity with family and friends is the only method.

In addition, they believe that the online methods are in conflict with MLM because it is asking the distributor to have a wider skill set. However, the MLM elite are forgetting one important thing....

...you cannot uninvent the wheel or the internet. They are both here to stay.

Just consider for a minute the in the US eCommerce and online marketing sales in 2019 was \$602 Billion. In addition, it is estimated that there will be over 2.05 Billion global buyers online in 2020, That is a market that the home business owner can not and should not ignore.

Fortunately, most of the **new MLM companies** see the advantage and understand that internet skills are vastly improved since MLM began.

THE NEW MLM PARTNERSHIP OF THE 21ST CENTURY

The new MLM hybrid model for direct sales is here to stay. As I have mentioned in my earlier articles, "The internet is simply a virtual extension of the physical world". This means that the old MLM mantra of speaking to everyone within a arms length is obsolete. Since the corona virus era of 2020 even dangerous.

Fortunately, the hybrid model of sharing products and opportunities has arrived at a perfect time. Statistics show us that 81 percent of consumers trust the advice of friends and family over businesses. This mean simply sharing information via social media or on other online platforms is going to be the new world order of MLM. People will need to learn new skills and mentor teams in different ways. This is how life has developed for a millennium in one way or another.

In the past, we ran our meetings at hotels and business centers, but now we run them online via Zoom or Facebook live. In the past we would do follow ups on the telephone and only locally, but now we can speak to people globally on WhatsApp. The world has changed and the network marketer has to change with it.

NEW PRODUCTS FOR NEW MLM COMPANIES

Four areas this company is developing all in one product, biohacking, nootropics, brain health and natural energy drinks.

What is biohacking?

Biohacking is a broad church and cover a wide range of topic, but for this review, it simply means making small, incremental diet or lifestyle changes to make small improvements in your health and well-being. At the moment the US biohacking market is predicted to be worth \$10.5 billion by 2023.

What is nootropics?

Nootropics is defined as any natural or synthetic substance that may have a positive impact on our mental skills. It is seen as a dietary supplements, synthetic compounds, and sometimes as prescription drugs. At the moment, the nootropics market is predicted to be worth \$5.9 billion by 2024.

What is Brain health?

For a person to function in the real world and have a job and maybe a good social life would be seen as being brain health. This would included making wise decisions, solving problems, interacting successfully with others, and enjoying an emotional balance. At the moment, the brain health market is predicted to be worth \$10.7 billion by 2025.

What are Energy drinks?

An energy drink is a liquid refreshment that has a high amount of stimulants that can enhance mental mental alertness and physical performance. At the moment, the energy drinks market is predicted to be worth \$86 billion by 2026.

CONCLUSION

There is no doubt about it that joining a relatively new company has its risk, but sometime the risk is worth taking. As Richard Branson said, "If you opt for a safe life, you will never know what it's like to win."

This company has so much to offer. It has a great product and a start over that everyone deserves at least once in their lives. In fact this is one of the best MLM companies to join in 2020.

This is the opportunity of a lifetime, so if you would like to find out more and work with one of the top **new MLM companies** and leaders online. Click on the source link below and add your name and email address in the form and I will get back to you asap...
